Subject: Airport Draft Master Plan Update Online for Review

Santa Rosa Charles M. Schulz – Sonoma County Airport is in the process of updating its 20-year Master Plan. The Draft Master Plan Update is now available for review and comment online. To review the draft plan, visit [sonomacountyairport.org](http://www.sonomacountyairport.org) (<http://www.sonomacountyairport.org/>) and click on Draft Master Plan Update.

Comments made online should be submitted by Friday, September 28, 2007. Public meetings are scheduled for mid-September. Dates, times, and locations will post on the Public Information Meetings page on the website in the first week in September.

The Draft Master Plan Update addresses Background and Inventory, Aviation Activity Forecasts, Airfield Design, Building Area Development, and Finance and Implementation. It is anticipated that the Board of Supervisors will review the plan for acceptance in October 2007. Once the Board accepts the Master Plan, an Environmental Review will take place. This process will take 18-24 months to complete. After the completion of the Environmental Review the Board of Supervisors will consider the adoption of the Master Plan Update. The earliest anticipated target date for the Board to take action on the plan is mid-year 2009.
