# SECTION 1

## INTRODUCTION

---

This appendix contains a list of comments received concerning the Draft Environmental Impact Report (EIR) during the 45-day agency and public comment period (5 August 2011 through 19 September 2011) and the responses to those comments.

Following this introduction, Section 2 provides a list of comments grouped by agency, by organization, and by individuals. Within the groupings, comment letters are organized in chronological order.

Section 3 contains text changes to the Draft EIR, reflecting necessary additions and corrections addressed by the public comments or responses to comments, or initiated to correct the Draft EIR. Text changes appear in order of page number in the Draft EIR on which the change is made. Where a text change is made as part of a response to a public comment, the comment number is noted.

Section 4 contains master responses to issues that were raised by several commenters. The master responses are intended to provide a comprehensive overview of the issue and are supplementary to the responses to specific comments contained in Section 5.

Section 5 contains copies of comments received during the comment period and responses to those comments. These comments were provided either in written format or as oral comments provided to a stenographer during the public open house on 15 August 2011 or during the County of Sonoma Planning Commission hearings on 1 September 2011 and 22 September 2011. Comments were also submitted electronically on the Charles M. Schulz – Sonoma County Airport (Airport) website. Each written comment is numbered in the margin of the comment letter, and the responses to all of the comments in a particular letter follow that letter. Similarly, the transcripts from the public open house and the County of Sonoma Planning Commission hearing are provided and the comments made to the stenographer are numbered in the margin of the transcript and the responses to all of the comments are presented following the transcript. Where a response includes a change to the text of the Draft EIR, a reference is made to Section 3, where text changes are listed in order of page number in the Draft EIR.
