Charles M. Schulz – Sonoma County Airport (STS)

Aircraft Noise Monthly Report

July 2020
About the Charles M. Schulz – Sonoma County Airport and Noise Abatement

The Airport operates as a self-supporting Enterprise Fund within the Department of Transportation and Public Works and under the jurisdiction of the Federal Aviation Administration (FAA). STS is both a general aviation facility, serving private planes and business jets, and is a commercial airline facility with scheduled air service. STS generates over $1,300,000 annually in tax revenues, via its users, for Sonoma County and County School Districts.

The Airport’s current Noise Abatement Program was established in 1988. STS also works within FAA guidelines, to encourage pilots and airlines to fly with consideration of our neighbors in mind. The Airport makes every effort to promote flight procedures that minimize aircraft noise while always maintaining safety as the highest priority. It is the FAA’s sole responsibility to develop air traffic rules, assign the use of airspace, and control air traffic.

STS is working with our Aviation Commission and a community advisory group to re-write the Airport’s Noise Abatement Guide and associated procedures. Using flight-tracking and noise management software, the Airport also provides monthly complaint reports to airlines so that operators can use real data to update flight practices and fly friendly.

STS Historical Operations
This Month’s Operations

- 227 Noise Complaints received
- 42 Individual Complainants
- 90 Complaints received from one individual
- 18 New Complainants
- 194 Correlated Operations*
- 39 Complaints that were non-specific, were regarding operations that did not include STS as the origin or the destination, or were unable to be correlated to a flight track/aircraft

*An Operation is a departure from or an arrival to the Airport. Complaints may be correlated to more than one Operation or may not be correlated to an Operation.

In July, the Airport received complaints from 18 new complainants. As in June, many new complainants were calling regarding helicopter operations. In July, the helicopter operations which generated complaints occurred either very close to the Airport (likely training operations) or ten or more miles from the Airport (likely PG&E power line inspections). The Airport also received several complaints that were unable to be correlated, but were most likely regarding the F/A-18 Hornet fighter jet operating out of the Airport mid-month. Complaints regarding airline operations also increased, including 24 complaints from one household. Complaints generally increase during summer months, when members of the public spend more time outdoors and keep their windows open at night. Additionally, the stay-at-home order has meant that many members of the public are spending less time out of their homes and may be more likely to notice air traffic.
What’s Changed This Year? July 2020 vs. 2019

37% decrease in TOTAL OPERATIONS
5,606 / 8,947

45% decrease in AIRLINE OPERATIONS
457 / 836

632% increase in TOTAL COMPLAINTS
227 / 32

100% increase in INDIVIDUAL COMPLAINANTS
42 / 21

Airlines and Operators Identified Through Complaints

Alaska Airlines

Alaska Airlines, American Airlines, and United Airlines operate jet aircraft. This graph does not include complaints which did not include an aircraft description and were unable to be correlated to a flight track/aircraft.
Aircraft Operated by Airlines at STS

- **Alaska Airlines**
  - E175 (76 seats)

- **American Airlines**
  - E175 (76 seats)
  - CRJ700 (65-76 seats)
  - CRJ900 (76-79 seats)

- **United Airlines**
  - CRJ200 (50 seats)

Identified Aircraft by Operation, Runway

- **123**
  - **Arrival**: 24
  - **Departure**: 2, 8, 7, 4
  - **Overflight**: 4, 17
  - **N/A**: 14, 20, 32

- **Legend**:
  - Red: Arrival
  - Green: Departure
  - Yellow: Overflight
Aircraft Altitudes

There were 181 aircraft with tracked altitudes identified through complaints made in July 2020. At the point of closest approach (PCA) to the complainant’s address, altitude was recorded (in feet).

</tr>
</tbody>
</table>

What are the altitude requirements for aircraft landing at or taking off from the Airport?

The Airport’s standard altitude pattern is the highest allowed by the FAA. Under FAA regulations, altitude restrictions are not applicable during landing and takeoff. The FAA has exclusive sovereignty of airspace in the United States (49 U.S.C. Section 40103(a)).

This graph reflects the locations of unique complainants this month.

Why are aircraft flying over my house?

The FAA directs traffic into and out of the Airport. Flights are directed to the safest pattern depending on the amount of air traffic and prevailing winds at the time of arrival or departure. Safety is the FAA’s first consideration. However, aircraft can and do fly over all parts of Sonoma County. Sonoma County does not contain any No Fly Zones.

Distance in Nautical Miles (NM) of Originating Complaint Locations from STS

This graph reflects the distance between the Airport and the addresses of unique complainants who made complaints this month in nautical miles (NM).
Days and Times Complaints Were Received

Day = 7:00 AM to 5:59 PM, evening = 6:00 PM to 9:59 PM, night = 10:00 PM to 6:59 AM.

Method by Which Complaints Were Received

Day = 7:00 AM to 5:59 PM, evening = 6:00 PM to 9:59 PM, night = 10:00 PM to 6:59 AM.

Day = 7:00 AM to 5:59 PM, evening = 6:00 PM to 9:59 PM, night = 10:00 PM to 6:59 AM.

*Complaints may be correlated to more than one Operation (arrival or departure from the Airport) or may not be correlated to an Operation or aircraft.
Contact the Charles M. Schulz – Sonoma County Airport

To learn more about Noise Abatement at the Airport or submit a noise complaint:

Or call our hotline (707) 565-4515

Complaint submission tips:

Provide as much information as possible, including date, time, and, if possible, a description of the aircraft. Include the reason for your complaint.

To submit a general comment:

Visit https://sonomacountyairport.org/about-sts/contact/
